The 15th Annual International Symposium on Congenital Heart Disease in the Adult - TORONTO 2005

May 26–28, 2005
Four Seasons Hotel
Toronto, Ontario, Canada

In cooperation with the Heart & Stroke/Richard Lewar Center of Excellence

Program Co-Directors:

Peter P. Liu,
MD, FRCP (C), FACC

David J. Sahn,
MD, FACC

Gary D. Webb,
MD, FRCP (C), FACC
Program Overview

This is the 15th anniversary of the highly successful ACC program on Congenital Heart Disease in the Adult. We continue to feature the combined faculty teams from the Oregon Health Sciences University and the University of Toronto, to bring to you the latest in adult congenital heart disease. The course will profile high caliber international faculty to cover a range of highly relevant topics. The course alternates between east and west locations. This course is designed with the practicing adult/pediatric cardiologists, internists, and surgeons in mind. The goal is to familiarize the participants with the latest clinical information on the diagnosis and management of adult congenital heart diseases. The emphasis will be on practical approaches and latest concepts in the pathophysiology and management in these potentially complicated patients and their long-term post-operative results. There will be time for discussion and for presentation of illustrative cases by the faculty and by the registrants. In addition to the discussion of general topics in adult congenital heart disease, the 2005 session will emphasize the ultra long-term sequelae of operated patients and potential risk factors and substrates for complications. The course will have choices of sessions to be enjoyed by both the novice and the expert. Workshops will feature case discussions and clinico/pathological correlations. The registrant is encouraged to bring his or her own problem cases for discussion. For those more familiar with congenital heart disease, there will be a case management session concurrent with the primer session. This year, our program offers a unique opportunity to attend the first “Contemporary Questions In Congenital Heart Disease” immediately following our program, May 29th–June 1st. For details please go to: www.sickkids.ca/cardiology/symposium

Objectives

Upon completion of this program, attendees should be able to:
- acquire basic knowledge on the anatomy and physiology of common adult congenital heart conditions;
- understand the natural and post-interventional history of patients with a variety of common congenital heart disease lesions;
- recognize the diagnostic approach to the patient presenting with congenital heart disease in the adult;
- use evidence-based approach to institute knowledgeable treatment strategies, both medical and surgical;
- utilize up-to-date treatment strategies for the adult congenital patient with appropriate timing;
- develop an algorithm for the follow-up of common groups of adult patients with congenital heart disease;
- appreciate unique adult problems, such as arrhythmias and how these affect treatment; and
- participate in a network of centres with expertise in congenital heart disease so that there is continued support, education and research to advance the care of this special group of patients.

Location

Toronto is a clean, safe, cosmopolitan city with a wonderful network of parks, and recreational and cultural facilities. Toronto is the home of four professional sports teams and the third largest English-speaking theatre district in the world, behind New York and London. As one of the world's most diverse cultural mosaic cities, it is home to more than 80 ethnic communities from Africa, Asia, and Europe. Toronto is also the business centre of Canada.

There are many wonderful sightseeing opportunities within the beautiful city itself, such as the CN Tower, Royal Ontario Museum, Casa Loma, and the Hockey Hall of Fame. Toronto allows for easy access to tour the delightful surrounding regions including Niagara Falls, Niagara Wine Country, and the Shakespearean Festival in Stratford.

The Four Seasons is a renowned five-star hotel located in downtown Toronto, in the heart of the fashionable Yorkville district, blending classic elegance with modern conveniences and services. The Four Seasons was awarded Conde Nast Traveler’s 2003 Top 50 North American Hotels. Institutional Investor 2003: Top 75 World’s Best Hotels; #1 Hotel in Toronto. Meetings & Incentive Travel 2004: Reader’s Choice award for “Best Meeting Facility in Canada”

A special evening social program will be available for course attendees and their guests on Friday May 27th. Tickets will be available at the registration desk on a first-come, first-served basis and will include transportation, cocktails, and dinner. Complimentary tickets for course registrants, $35 Canadian (cash or cheque) for guests of registrants. The location of the social event will be announced on site. Dress code: business casual.
International Symposium on Congenital Heart Disease in the Adult—Toronto 2005

All sessions will be held at the Four Seasons. Meeting room locations will be provided on site. Meeting site telephone: 416-964-0411. Views expressed in this program are those of the individual speaker and do not necessarily reflect views of the ACCF.

Schedule Thursday, May 26th

### Faculty

#### Program Co-directors

- **Peter P. Liu, MD, FRCP(C), FACC**  
  Heart and Stroke/Polo Chair Professor of Medicine, Director, Heart and Stroke/Richard Lewar Centre of Excellence in Cardiovascular Research, University of Toronto and Toronto General Hospital/University Health Network, Toronto, Ontario, Canada

- **David J. Sahn, MD, FACC**  
  Professor of Pediatrics, Diagnostic Radiology and Obstetrics & Gynecology, Director, the Clinical Care Center for Congenital Heart Disease, Director, Interdisciplinary Program for Cardiac Imaging, Oregon Health & Sciences University, Portland, Ore.

- **Gary D. Webb, MD, FRCP(C), FACC**  
  Professor of Medicine, Director, Philadelphia Adult Congenital Heart Disease Center, University of Pennsylvania, Philadelphia, PA.

#### Guest Faculty

- **Michael S. Connelly, MD, BSc, MBBS, MRCP**  
  The Peter Lougheed Centre, Calgary Adult Congenital Heart Clinic, Calgary, AB

- **John E. Deanfield, MB, Bchir (Cantab), FRCP**  
  Professor of Cardiology, Head of GUCH Unit, University College, Director, Cardiothoracic Unit, Great Ormond Street Hospital for Children, London, UK

- **Bruce D. Gelb, MD**  
  Professor of Pediatrics and Human Genetics, Mount Sinai School of Medicine, Departments of Pediatrics and Human Genetics, New York, NY

- **Harald Kaemmerer, MD, VDM, FESC**  
  Professor of Internal Medicine & Cardiology, Adult Cardiologist, Department of Pediatric Cardiology and Congenital Cardiac Disease, Deutsches Herzzentrum Muenchen (German Heart Center, Munich), Technical University, Munich, Germany
Faculty (continued)

Guest Faculty

Michael J. Landzberg,
MD, FACC
Assistant Professor of Medicine,
Harvard Medical School,
Director, Boston Adult Congenital Heart Service,
Boston, Mass.

Joy E. Lyon
RN, MSc, PhD Candidate
Institute of Health and Community Studies,
Bournemouth University,
Royal London House, UK

Pamela D. Miner,
RN, MN, NP
Nurse Practitioner, Division of Cardiology,
University of California, Los Angeles Medical Center,
Ahmanson/UCLA Adult Congenital Heart Disease Center,
Los Angeles, CA

Barbara J. M. Mulder
MD, PhD
Professor of Cardiology,
Department of Cardiology, Academic Medical Center,
Amsterdam, The Netherlands

Erwin N. Oechslin,
MD, FESC
Consultant for Adult Congenital Heart Disease,
Staff Cardiologist, CardioVascular Centre,
University Hospital,
Zurich, Switzerland

Joseph K. Perloff,
MD, FACC
Streisand/American Heart Association Professor of Medicine and Pediatrics,
Emeritus Founding Director, Ahmanson/UCLA Adult Congenital Heart Disease Center,
Los Angeles, CA

Jane Somerville,
MD, FRCP, FESC, FACC
Professor of Cardiology,
Grown-up Congenital Heart Unit,
Middlesex Hospital/University College,
London, UK

Tom L. Spray,
MD, FACC
Professor of Surgery, University of Pennsylvania,
Chief, Division of Cardiothoracic Surgery,
Alice Langdon Warner Endowed Chair in Pediatric Cardiothoracic Surgery,
Children’s Hospital of Philadelphia,
Philadelphia, PA

Judith Therrien,
MD, FRCP(C)
Asst. Prof. Of Medicine, McGill University,
Consultant Cardiologist, Adult Congenital Cardiac Center,
The Sir Mortimer B. Davis Jewish General Hospital,
Montreal, Quebec

John K. Triedman,
MD, FACC
Associate Professor of Pediatrics,
Harvard Medical School,
Arrhythmia Service, Children’s Hospital Boston,
Boston, Mass.

Isabelle F. VonderMuhll
MD, FRCP (C)
Assistant Professor of Medicine, University of Alberta,
Division of Cardiology,
University Medical Centre,
Edmonton, AB

Carole A. Warnes,
MD, MRCP, FACC
Professor of Medicine, Mayo Medical School,
Consultant, Division of Cardiovascular Diseases and Internal Medicine,
Consultant, Division of Pediatric Cardiology,
Director, Adult Congenital Heart Disease Clinic,
Dean, Mayo School of Continuing Medical Education,
Rochester, Minn.

James Yip,
MD, MBBS, MRCP(UK), FAMS
Consultant Cardiologist, Adult Congenital Heart Program,
National University Hospital,
Singapore

Oregon Health Sciences University Faculty
Portland, Oregon

Seshadri Balaji,
MD, MBBS, FACC
Associate Professor of Pediatrics,
Director, Pediatric Arrhythmias,
Pacing and Electrophysiology

Grant H. Burch,
MD, FACC
Assistant Professor of Pediatrics,
Director, Pediatric & Adult Congenital Cardiac Catheterization Laboratory,
Director, Pediatric Cardiology Fellowship Training Program
Faculty (continued)

Guest Faculty

University of Toronto Faculty

Jeanine Allen, RN, MN/ACNP
Acute Care Nurse Practitioner, Toronto Congenital Cardiac Centre for Adults

Lee N. Benson, MD, FRCP(C), FACC
Professor of Pediatrics, Director of Cardiac Catheterization Laboratory, Hospital for Sick Children

Benoit G. Bruneau, PhD
Assistant Professor, Dept of Molecular and Medical Genetics, Scientist, Cardiovascular Research, Hospital for Sick Children

Jack M. Colman, MD, FRCP(C), FACC
Associate Professor of Medicine, Director, Clinical Services, Toronto Congenital Cardiac Centre for Adults, Co-director, Heart Diseases in Pregnancy Program, Mount Sinai/UHN

Tirone E. David, MD, FRCS(C), FACS
Professor of Surgery, Melanie Munk Chair of Cardiovascular Surgery, Head, Division of Cardiovascular Surgery, Toronto General Hospital/University Health Network

Louise Harris, MD, MB, ChB, MRCP, FRCP(C), FACC
Associate Professor of Medicine, Electrophysiologist, Toronto Congenital Cardiac Centre for Adults

Jane Heggie, MD, FRCP
Assistant Professor of Anesthesia, Staff Cardiovascular Anesthesiologist, Co-Director, CVICU, Toronto General Hospital/University Health Network, Toronto Congenital Cardiac Centre for Adults

Eric Horlick, MDCM, FRCP(C)
Assistant Professor of Medicine, Interventional Cardiologist, Toronto Congenital Cardiac Centre for Adults

Shaf Keshavjee, MD, Msc, DABS, FACS, FRCS(C)
Professor and Chair, Division of Thoracic Surgery, Head, Division of Thoracic Surgery, Toronto General Hospital/University Health Network, Director, Thoracic Surgery Research, Director, Toronto Lung Transplant Program

Peter R. McLaughlin, MD, FRCP(C), FACC
Professor of Medicine, (Senior) Cardiologist, Catheterization Laboratories, Clinical and Interventional Cardiologist, Toronto Congenital Cardiac Centre for Adults

Andrew N. Redington, MD, FRCP
Professor of Pediatrics, Head, Division of Cardiology (Pediatrics), Interim Head, Toronto Congenital Cardiac Centre for Adults

Candice K. Silversides, MD, MS, FRCP(C)
Assistant Professor, University of Toronto, Cardiologist, Toronto Congenital Cardiac Centre for Adults

Samuel C. Siu, MD, FRCP(C), FACC
Associate Professor of Medicine Cardiologist, Toronto Congenital Cardiac Centre for Adults, Director, Echocardiography Laboratories, Mount Sinai Hospital/UHN

Glen S. Van Arsdell, MD, FRCS(C),
Associate Professor of Surgery, Head, Cardiovascular Surgery, Hospital for Sick Children Surgeon, Toronto Congenital Cardiac Centre for Adults

William G. Williams, MD, FRCS(C),
Professor of Surgery, Former Head, Cardiovascular Surgery, The Hospital for Sick Children, Surgeon, Toronto Congenital Cardiac Centre for Adults

J. Leon Zelovitsky, MB ChB FRCP(C),
Medical Imaging Radiologist, Toronto Congenital Cardiac Centre for Adults
Registration

The 15th International Symposium on Congenital Heart Disease in the Adult—Toronto 2005

Payment must accompany application.

- Check payable to American College of Cardiology Foundation in U.S. dollars drawn on a U.S. bank.
- MasterCard
- VISA
- American Express
- Discover

* Registrants in the reduced fees category are required to submit with the registration form proof of licensure, a business card, or a letter written on official letterhead and signed by a department supervisor verifying status.
Information

Fee
Early registration saves $100 in each member category. See the application for details. Your registration fee will be confirmed by mail. The registration fee includes the continental breakfast, refreshment breaks, lunches, and the syllabus. The deadline to register in advance is April 22, 2005. After this date, you must register on site, and a $100 processing fee will apply. Please be aware that date of postmark does not indicate date of receipt.

Cancellations
Cancellation, substitution, or transfer to another course is allowed if written cancellation is received four weeks before a scheduled course. A full refund minus a $100 processing fee will be given for written cancellations received fewer than four weeks before the first day of the program. No refund will be given for no-shows.

In the unlikely event that the program is cancelled, the College will refund the registration fee in full, but is not responsible for any travel or hotel costs you may incur.

Credit
The American College of Cardiology Foundation (ACCF) is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. The ACCF takes responsibility for the content, quality, and scientific integrity of this CME activity.

The ACCF designates this activity for a maximum of 20.5 hours in Category 1 credit toward the AMA Physician’s Recognition Award. Each physician should claim only those hours of credit that he or she actually spent in the educational activity.

While offering CME credit hours noted above, the program is not intended to provide extensive training or certification in the field.

Lodging
To secure your room at the Four Seasons Hotel, please call 416-964-0411 and state that you will be attending the American College of Cardiology Foundation program. The room rate is $275 Canadian dollars single/double per night. The hotel room block is scheduled to be held until April 25, 2005, but may be sold out before this date. Therefore, we advise you to register for the program and reserve your lodging as soon as possible. When you make your reservations, please be sure to ask about any early departure fees or cancellation penalties. We encourage participation by all individuals. If you have a disability, advance notification of any special needs will help us better serve you.

Special Air Fares
Information regarding special airfares will be sent to all registrants with the acknowledgment of enrollment. Discounted travel arrangements may be made also with New Wave Travel. In North America, please e-mail jhing@newwavetravel.net and give this code CV 053564. Smoking is prohibited in all ACC meeting rooms.

Acknowledgment
At the time of this printing, a complete list of industry sponsors was not available. Appropriate acknowledgment will be given to all sponsors at the time of the conference.
